

Word Builders

CVC Words

Created by

©Christina Winter 2014

Thank you for
your interest in my product!

Included:

There are 3 Word Builder mats for each short vowel, 5 mixed short vowel mats (more challenging), blank templates if needed and a student recording sheet.

These word builders are self checking since students only have the letters they need to build the pictured words on their mat.

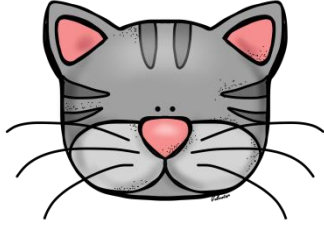

I hope you will visit my store again soon find other engaging, effective learning activities!

Word Builders #1

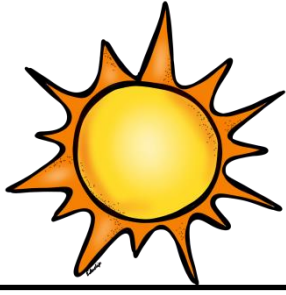

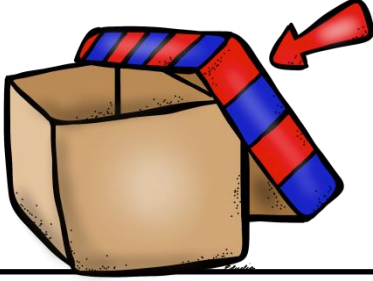

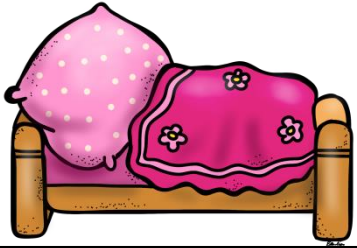

Word Builders #20*

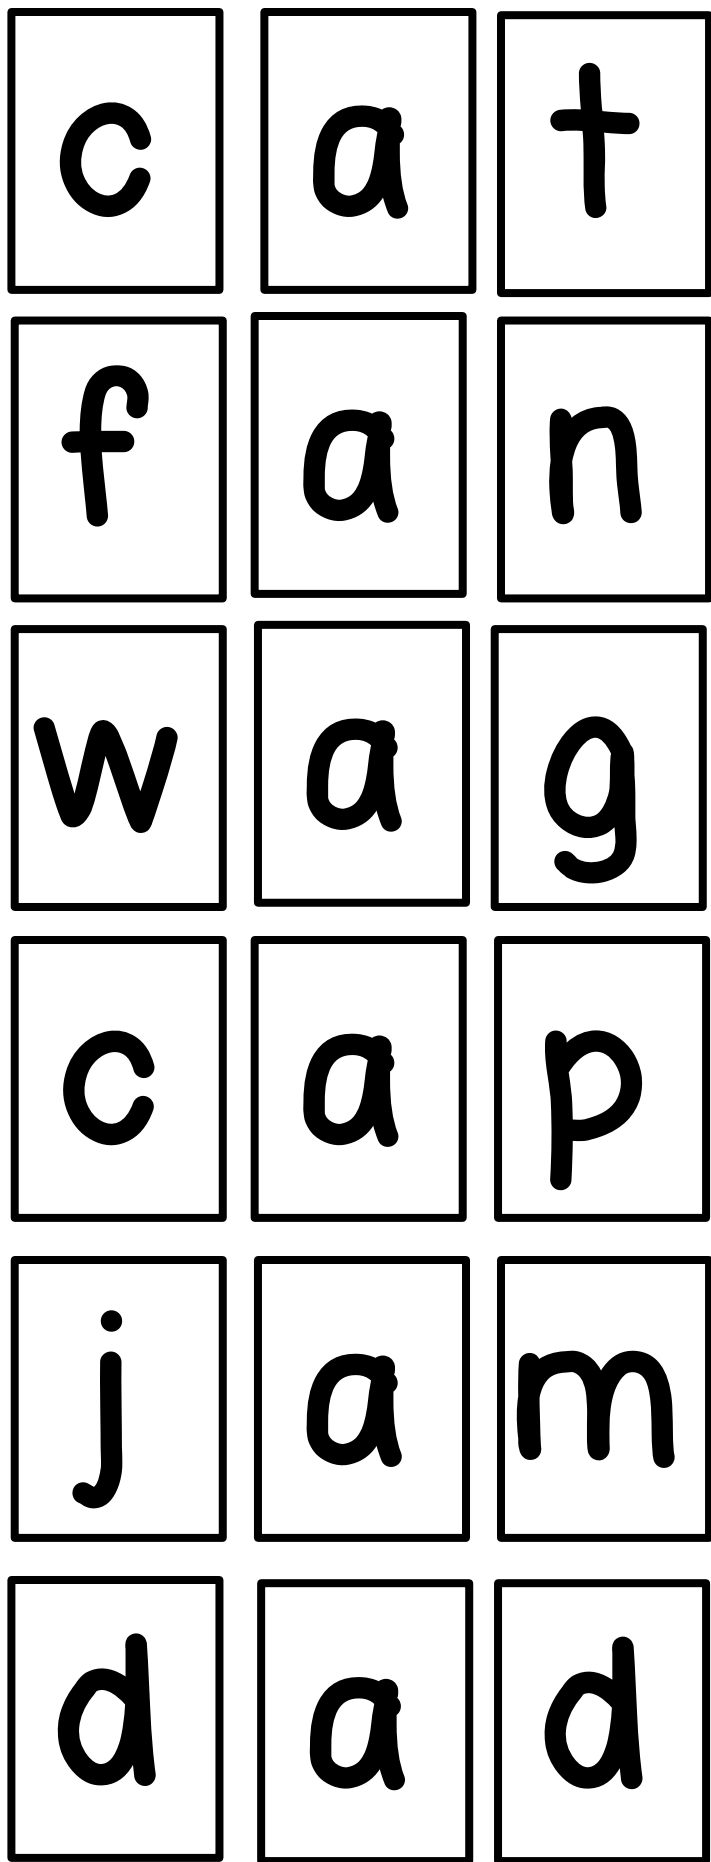

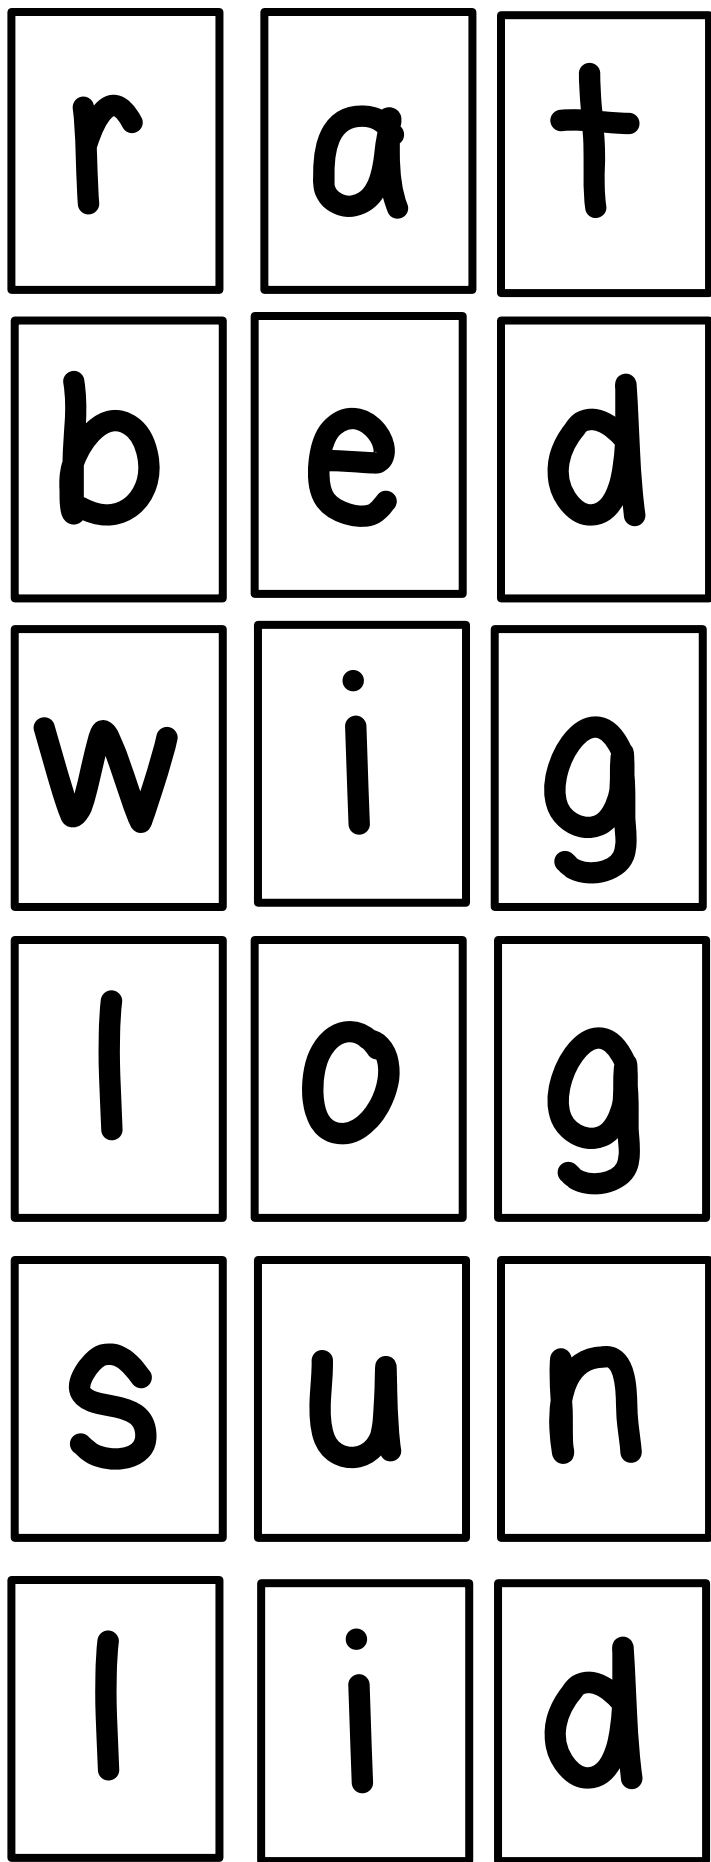

Word Builders #1

For durability copy each word builder set of letters on a different color construction paper and laminate before cutting out.

I always mount my word builders mat on the same colored construction paper so that if a letter is found outside of its storage bag your students can easily return it to the correct mat.

*Challenge (Mixed Vowels)

Word Builders #20

For durability copy each word builder set of letters on a different color construction paper and laminate before cutting out.

I always mount my word builders mat on the same colored construction paper so that if a letter is found outside of its storage bag your students can easily return it to the correct mat.
