Hello Friend!

Included in this pack:

26 Summer picture prompts

2 blank writing templates

Sight word reference printable

Writing checklist anchor chart (2 styles)

My students love this literacy center! These printables naturally differentiate your writing center. Even my most emergent, timid writers shine using them! Each page has a very basic picture and vocabulary words students may very likely use in their writing. I believe the picture should be simple so students can use their creativity while writing.

Students can use the printables for different types: narrative, informative, and opinion writing. My favorite part of these printables is the check list reminder at the bottom of the paper. I have also included a basic sight word list to post in your writing center to assist with those tricky words.

I believe students should be given choices as often as possible. To organize, I mount one on a file folder, tape the sides, laminate, and put copies in the folder for them to easily choose. With so many choices, this writing center will be engaging for months!

I hope you and your students enjoy it too! **Christina**
