IF MY GINGERBREAD CAME TO LIFE

BY: Ella

If my gingerbread came to life one day I would be so excited. The first thing I would want to do together is build a gingerbread house. I think a gingerbread would be an expert at building a gingerbread house. We would use all different kinds of icing and peppermints to decorate the house. Next, I would want to watch holiday movies and drink hot chocolate together. It would be so cool to have a gingerbread come to life.
